

INSTRUCTIONS

- Go to- <https://www.apachefriends.org/index.html>
- Download the relevant XAMPP version:

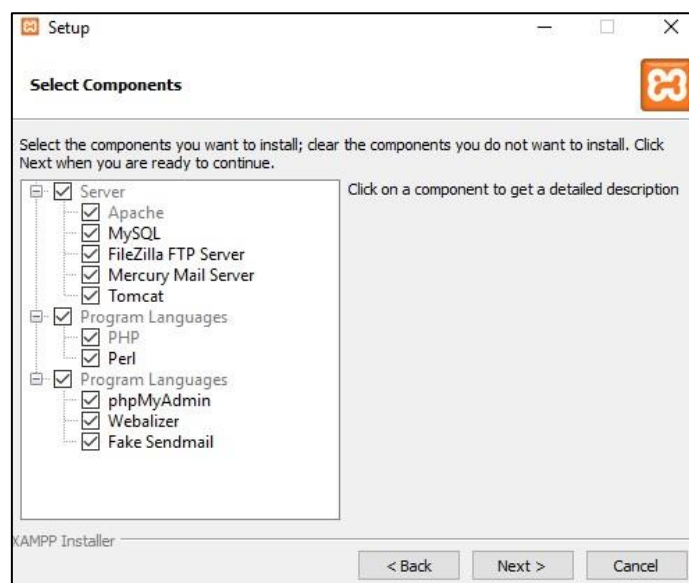

- Click 'run'

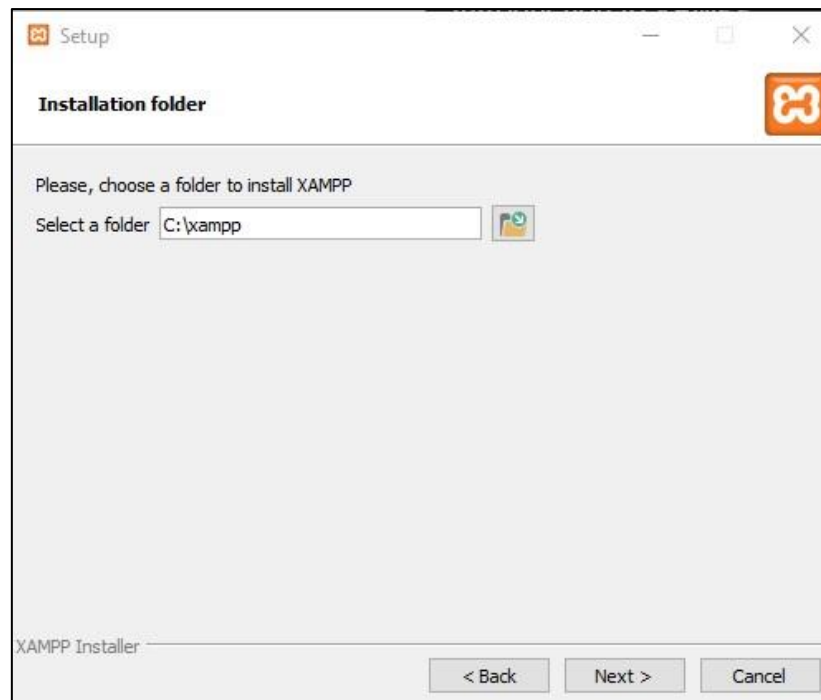

- Allow the tool to make changes
- Click 'next'

- Click 'next'

- Click 'next' to create an XAMPP folder in your C drive

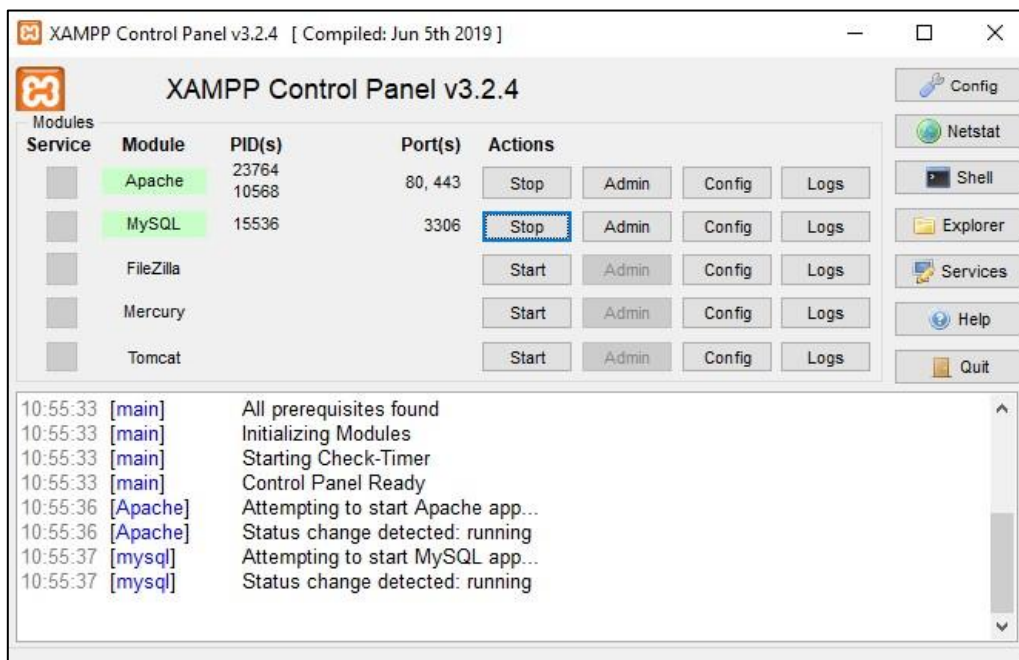

- Click 'next'

- Click 'next' followed by 'install'

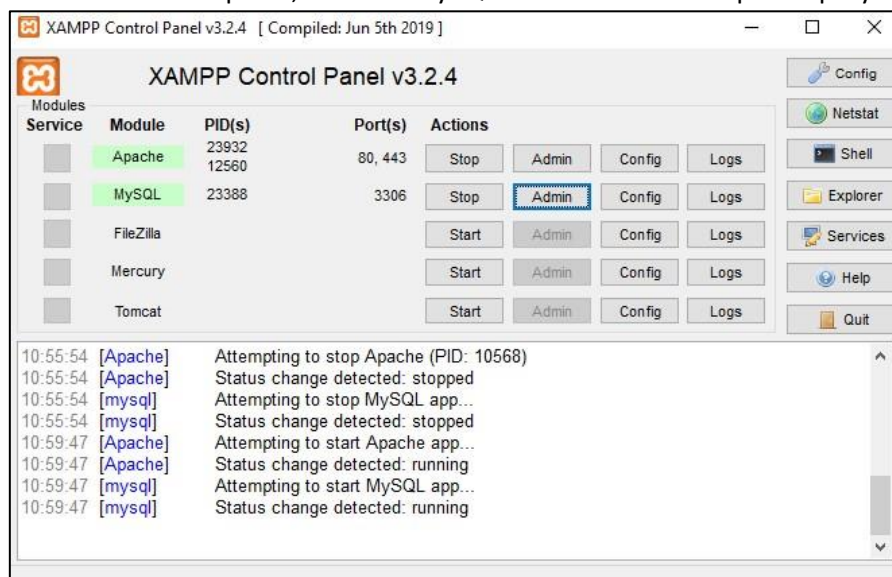

- In your computer search 'XAMPP control panel' and select 'start' for the 'Apache' and 'MySQL' modules

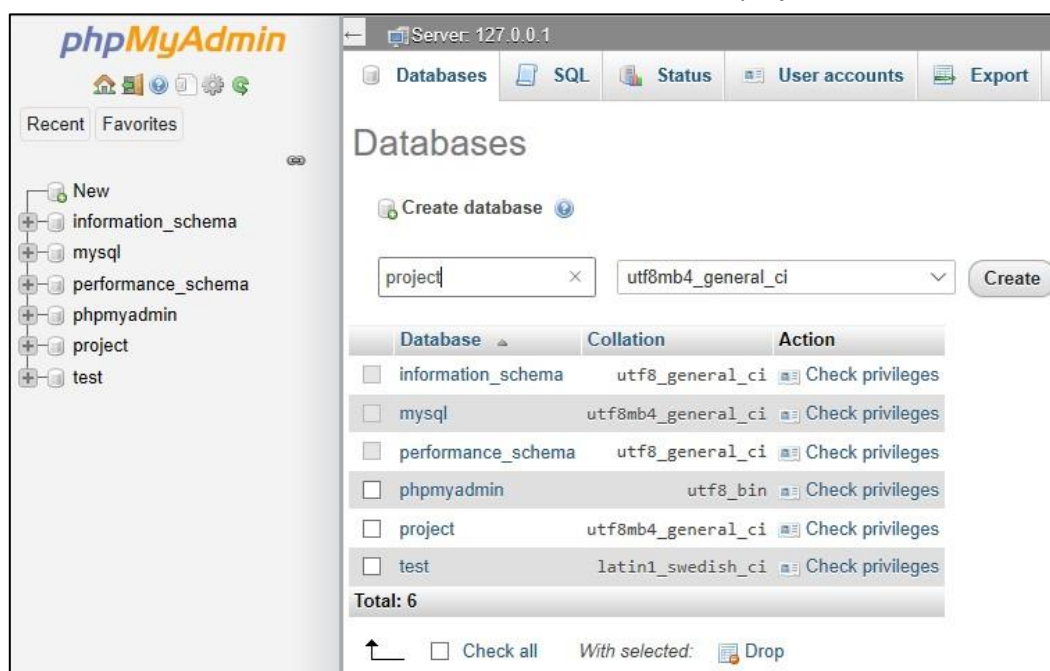

- Copy the 'project_php' folder containing the project code
- Navigate to 'Windows (C:)'
- Navigate to 'xampp'
- Navigate to 'htdocs'
- Paste the folder in the 'htdocs' folder

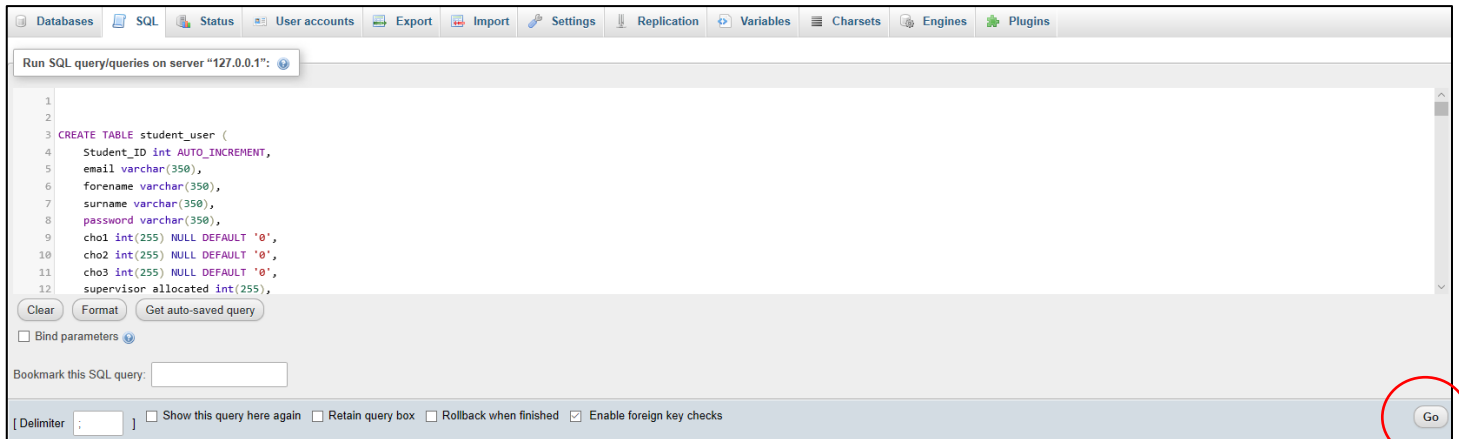

- On the XAMPP control panel, click the MySQL 'Admin' button to open PhpMyAdmin

- Click the 'Databases' tab and create a new database called 'project'

- Go to the 'SQL' tab. Copy the SQL code from the file 'SQLTest.sql', paste it in the text box on the SQL page and press 'go'

- Open up your internet browser and in the search bar at the top of the page, search 'localhost/project_php'
- You are now ready to test the system!
- The database has been manipulated and populated with dummy data and the academic frequencies have been manipulated so that not all choices are available!
- Buggs Bunny, Tweety Bird, Mickey Mouse and Tom Cat have all been given high frequencies for testing purposes
- All staff and student passwords are set to 'test123'
- For the staff portal use: 'gramnsey@lincoln.ac.uk', 'joliver@lincoln.ac.uk' or 'phollywood@lincoln.ac.uk'
- For the student portal use any of the accounts displayed below:

potter@students.lincoln.ac.uk
spongebob@students.lincoln.ac.uk
bloggs@students.lincoln.ac.uk
star@students.lincoln.ac.uk
tenant@students.lincoln.ac.uk
mittchell@students.lincoln.ac.uk
partridge@students.lincoln.ac.uk
gerrard@students.lincoln.ac.uk
skywalker@students.lincoln.ac.uk
stark@students.lincoln.ac.uk
